BLUELIGHT DIGITAL SOUND

Summer Camp 2017 Scholarship Contest

Calling all 4th – 6th grade Springfield Elementary School students! Are you an aspiring musician? Perhaps you dream of being a future singer? Maybe you envision yourself behind-the-scenes mixing, editing, and producing? If this sounds like you, then here is your chance to win a full scholarship for Blue Light Digital Sound's 2017 Music Production Camp. This hands-on experience will allow students exclusive access to Blue Light's entire studio filled with professional recording equipment and instruments. Working with audio engineers in Blue Light's custom built studio, campers will learn modern music production concepts to create inspiring music, collaborate with other artists and musicians, and record and produce original music. This year's camp will run Monday through Friday from 10:00AM to 12:00PM, beginning July 24th and ending August 4th. Located in historic downtown Mt. Holly, Blue Light Digital Sound is just a short drive from Springfield making this the perfect mid-summer educational opportunity for our students.

The contest rules are simple:

- 1.) Using the attached form, students submit a brief narrative explaining how music is inspiring. In the narrative, students should identify a song that is particularly inspiring to them.
- 2.) Building off their selected song from the narrative, students will submit a video of them interacting with the song. This could be a video of them singing the song, performing along with it, making a painting about the song, editing / mixing the song, dancing along with it....whatever they are inspired to do is encouraged.

Submissions will be due by no later than April 28, 2017 (please see the attached form for specific details regarding how applicant videos will be submitted). The scholarship recipient, selected exclusively by the Blue Light Digital Sound engineering team, will be notified by mid-May.

You can find out more about Blue Light Digital Sound and their summer camps via this link:
